

Home Study Program

Concept of Home Study

It is a life-long learning concept, arising out of the conviction that no Christian should stop in their pursuit of a deeper understanding of God's word, and that the church should provide a systematic but flexible program to meet each individual's life pursuit of Biblical knowledge. Oversight of the program is part of the pastoral ministry, and, through a yearly resume and quarterly checks, provides the opportunity for the student to have accountability and direction in their Christian growth

Course Outline
